# INSTALLATION GUIDE

How do I get the App?

You need an iPhone or Android phone. If you don't have one of these phones, you can still access your son's information through the website version.

Go to your App Store and search for School Gateway:

School Gateway
ISUZ Limited

Or use one of these links:

When you install the app, it will ask for your email address and mobile number. These must match those we have on record for you at school.

If your phone number is not the current number that we hold on our system for you, you will get a message in the app and you then need to contact school to update your details.
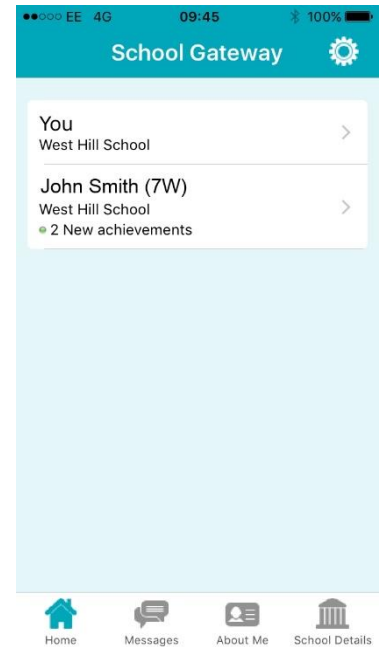

When you successfully link your phone to your son's record, you'll be sent a 4-digit PIN to use when opening the School Gateway app. Use this to log in the 'Existing User' section.

The app is a great way to stay in touch with school. You'll get automatic notifications about your son so you don't have to keep checking back with a website to see if anything has been updated. We'll also send messages out via the app so it will help to keep all your school information in one place.
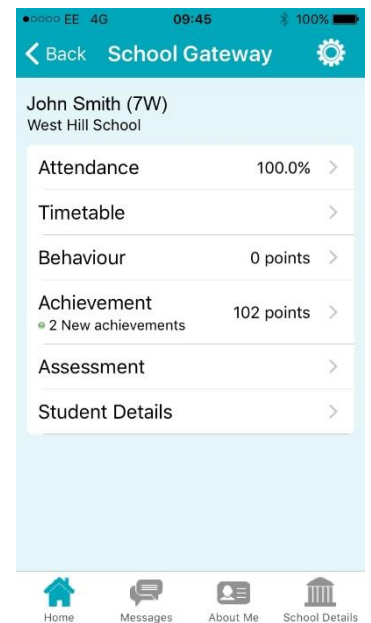

What can I do with the App?

On the homepage, you will see a link for yourself and all of your sons at the school.

By clicking on your son's name, you will see a menu of options available.

'Payments' will also be showing as an option.

Website Gateway

You can access your son's information through the website version of the gateway.

The address is: https://login.schoolgateway.com

On your first visit you need to click the New User tab:

To register, you must have the email address and mobile phone number that school has registered for you. These details are used to link you to your son's data that we hold in school.

When you have registered, a PIN number will be sent to your phone which you will need to enter on the website.
