

## Cycling to school

We would like to encourage as many pupils as possible to use public transport, walk or cycle to school. During 2016-17 we will be taking part in phase 2 of the GM cycle schools project and will be investigating ways to increase the numbers of pupils cycling to school. To be allowed to store a cycle on site all pupils and parents must sign the following agreement.

I understand and agree with the following conditions under which my son may cycle to school:

- 1. Until further facilities are provided pupils must only park bikes in the designated area behind the music block – nowhere else in school.**
- 2. Riding bikes on the school site is strictly forbidden and boys must walk with them to the storage area.**
- 3. A cycle helmet must be worn on the way to and from school.**
- 4. The cycle should be regularly checked and maintained.**
- 5. To deter theft, an appropriate lock will be used to lock the bike during the day.**
- 6. Pupils using their bike in periods of darkness will ensure they have working lights and make an effort to be visible to other road users by wearing appropriate safety clothing.**

I understand that school will take all reasonable steps to ensure general security throughout the day but are not responsible for any damage or loss that may occur.

I give my consent for my son to cycle to school.
