

Electronics Revision

Electronics has two examinations, Paper1 and Paper 2 both are one and a half hours long. Together they are worth 80% of the final grade

Students should be working through the **Electronics E-book on the VLE**

<https://vle.westhillschool.co.uk/course/view.php?id=264>

This covers all aspects of the course and has sample exam questions with answers.

Also on the school VLE is the **Logic revision unit**.

<https://vle.westhillschool.co.uk/course/view.php?id=147>

Logic is an integral part of both examinations the self-marking task above is a great refresher of the topic.

Past Papers

<https://www.wjec.co.uk/qualifications/qualification-resources.html?pastpaper=true&subject=Electronics&level=gcse>

These are from the previous specification but the content is still valid.

Technology Student

<http://www.technologystudent.com/elec1/elecex.htm>

Not related to the current Electronics qualification but some useful explanations and content together with exam style questions.
