ICT Vision

West Hill School is committed to using ICT across the whole school to develop the skills required for today's technology driven world.

We aim to do this through:

E-Safety

By creating a culture of whole school awareness, through policies, procedures and training that provide for a safe ICT environment.

Teaching & Learning

By providing an environment where access to ICT resources is natural and commonplace and is supportive in the enrichment of the teaching and learning experience of all.

Management

By strategically managing, planning and investing in ICT in line with the School Development Plan.

By using ICT systems that incorporate assessment and monitoring with reporting to allow access to achievement and target-setting data for individuals.

By using systems that allow for efficient administrative and financial analysis and monitoring to support ICT and school developments.

Parents

By providing secure access, through the Learning Gateway, for details on current attendance, conduct and assessment information for parents about their child.

School Partnerships

By using ICT to develop partnership working with other schools, businesses and communities worldwide.

This vision is supported by the following policies and guides:

ICT E-Safety Policy

This document supports a culture of whole school awareness that provides for a safe ICT environment. It is produced for the benefit of Governors, staff, pupils and parents/carers.

ICT Security Policy

This document identifies the criteria which protects the schools information assets from threats, whether internal or external, deliberate or accidental.

ICT Procurement Policy

This document identifies the requirements for all investment into ICT for both educational and administrative purposes.

ICT Acceptable Use Guide

This document is a supplement to the schools ICT E-safety and security policies, providing further detail in the areas of E-Safety and acceptable use of ICT resources.

ICT User Guide

This document provides an introduction to the ICT in school and its uses for staff.
